

— Profile

Senior Product Manager with 10+ years building and scaling B2B and B2C SaaS products, end-to-end from idea and MVP to growth and data. Specialised in product strategy, UX, SaaS metrics, applied AI and pricing. I work closely with design, engineering and business to build coherent, scalable products with an outstanding user experience.

— Highlights

2026 Emendu — Strategic partnership with Sesame HR.

2023 INDYA — Monthly churn from 16% to 10% · first-month activation +28%.

2022 INDYA — Selected for Apple App Store Foundations.

2021 TheTool — Acquired by AppRadar. [Exit](#)

2019 TheTool — Nominated Best ASO Software in Europe (App Promotion Summit).

— Experience

Emendu

Product Manager · B2B SaaS · IT Management

Feb 2025 — Present

Member of the leadership team (Management, Operations, Tech & Finance)

- Defined end-to-end product strategy starting with the ICP, redefined through discovery outside the pipeline: from 0 to more than 50 customers in the first year.
- Led the product's evolution: from a manual operation to a digital, API-first system — from 23% to 90% pipeline traceability.
- Led, with the Tech Lead, the strategic partnership with Sesame HR: phase 1 in 7 product weeks and a new acquisition channel.
- Evolved LISA (AI agent): from an inconsistent system to a functional agent with dynamic data access, living documentation and multilingual capabilities.
- Drove the shift from a SaaS built by an external agency (Bubble) to an in-house engineering team, taking part in hiring a Tech Lead.
- Built an internal tools hub with Claude Code that cut operational-management time on reports, briefs and proposals by 38%.

KUOTIP

Cofounder & Product · B2B2C SaaS · Customer Reviews

Feb 2024 — Dec 2024

Cofounder (1 of 3 partners) · alongside the CEO and CTO

- Validated the problem on both sides of the market —fraud, manipulation and rising costs— with more than 30 user interviews and 15 with companies.
- Designed the full product flows, integrating voice-based identity verification and automated AI summaries.
- Defined the MVP with the product designer, with a UI focused on the chosen sector and built for a visual format.
- Supported the CEO on strategy and in the meetings with pre-seed funds.

INDYA

Product Lead · B2C SaaS · Health tech

Jan 2022 — Dec 2023

Reported to the CPO and the CTO · leadership through influence

- Co-defined the growth strategy on the lifecycle rather than features: activation, engagement and retention as the roadmap's levers.
- Introduced systematic user research where there was none: interviews, surveys and continuous post-churn analysis.
- Cut monthly churn from 16% to 10%, tackling both voluntary and involuntary churn with product and customer success.
- Improved first-month activation (+28%) by optimising onboarding, personalisation and value comprehension.
- Redesigned pricing with A/B testing, unifying plans and removing entry barriers: +13% conversion and +5% ARPU, without affecting retention.
- Led delivery improvements: from Trello to Jira, real ceremonies, delivery criteria and sprints with a single focus.

Freepik

Product Manager · B2C SaaS · UGC

Reported to the Head of Product

- Researched and defined features for the contributors area from qualitative and quantitative analysis.
- Redesigned contributor sign-up and onboarding, where 75% dropped off: a simplified flow and emails that walk through to profile approval.
- Owned the squad's OKRs.

TheTool

Cofounder & Product · B2B SaaS · ASO

Cofounder (1 of 4 partners) · voice and vote on key decisions

- Cofounder responsible for the vision, MVP design, validation and the launch of the paid version; TheTool was born bootstrapped, funded by the agency that incubated it.
- Designed and evolved the features that set us apart: installs/ASO correlation, tracking dashboards, ASO score, international analysis, timeline and bulk monitoring.
- In 3 days we turned a hidden Google Play beta into an open feature: 7 months before the market and +30% MRR in 2 months.
- Led roadmap, discovery, functional definition and coordination with development, marketing and CS.
- Brought on the first Product Designer, and with them the full redesign of the brand and the platform.
- TheTool established itself among the reference ASO tools —nominated Best ASO Software in Europe— and was acquired by AppRadar in 2021.

PICKASO

COO · App Marketing · Agency

- Professionalised the agency's structure, processes and service portfolio.
- Repositioned the brand and value proposition.
- Operational and market-knowledge base that made incubating TheTool possible (research into its future competitors).

Oct 2021 — Dec 2021

May 2016 — Oct 2021

Sep 2015 — Dec 2016

Earlier experience — Marketing & Growth

This earlier stage in marketing and growth built the analytical, experimentation and user-first foundation that defines my approach as a Product Manager.

Ontecnia

Digital Marketing Manager · Malavida.com

Sep 2013 — Sep 2015

- Organic growth from 3.2M to 9.4M monthly visits.
- Drove the business-model shift: from intrusive installers to valuable content and video monetisation — the start of my move towards product-first.

Havas Media · Incentra · Miss Conversion

Digital Marketing / Performance

2009 — 2013

- Acquisition and performance at leading agencies — the analytics, CRO, UX and leadership base that enabled the move into product.
